

CASE STUDY

ADS ROI UNLOCKED

Scalable Lead Generation for Healthcare & Cosmetic
Clinics via Google Ads

OVERVIEW

This campaign focused on generating qualified patient inquiries and appointment bookings for a Dental Clinic and Physiotherapy Center through highly targeted Google Search Ads.

The goal was to increase conversions while keeping the cost per lead (CPL) optimized. Over a 3-month period (July–September 2025), the campaign consistently improved traffic quality, conversion efficiency, and overall ROI through continuous optimization and data-driven adjustments.

THE CHALLENGE

When we inherited the account, the following challenges were evident:

- Generate high-quality leads for both dental and physiotherapy services
- Maintain a strong conversion rate while scaling traffic
- Reduce cost per conversion with smarter keyword and bid management
- Improve overall ad visibility and engagement

STRATEGY IMPLEMENTED

We developed ads strategy with the following focus areas:

1. Service-Based Campaign Segmentation

- Separate ad campaigns were created for Dental and Physiotherapy services, allowing more control over keywords, ad copy, and budgets tailored to user intent.

2. Keyword & Intent Optimization

- Targeted high-intent search phrases like “best dental clinic near me” and “physiotherapy for back pain.”
- Removed underperforming keywords and added negative keywords to refine targeting.
- Focused on geo-targeting within a limited radius to reach local audiences searching for nearby clinics.

3. Conversion-Focused Ad Copy & Extensions

- Developed ad copies highlighting trust, expertise, and urgency (e.g., “Book Your Same-Day Appointment Today”).
- Added call extensions, location extensions, and site links to improve CTR and conversion actions.

4. Smart Bidding & Continuous Optimization

- Switched to Maximize Conversions bidding strategy for better automation.
- Analyzed device, time, and demographic performance for bid adjustments.
- Improved landing page call-to-action placement to increase form fills and direct calls.

RESULTS (June)

RESULTS (July)

RESULTS (August)

RESULTS (September)

CAMPAIGN PERFORMANCE HIGHLIGHTS

Month	Impressions	Clicks	Cost	Conversions	Avg. CPC	Cost/Conversion
Jun 2025	9,892	318	\$837.78	19	\$2.63	\$44.09
Jul 2025	6,788	295	\$877.83	19	\$2.98	\$46.18
Aug 2025	7,062	264	\$818.32	12.99	\$3.10	\$62.98
Sep 2025	9,218	323	\$1,385.35	33	\$4.29	\$41.98

KEY WINS & HIGHLIGHTS

- Consistent month-over-month improvement, reaching 33 conversions in September (highest in 3 months).
- Reduced CPL from \$62.98 → \$41.98 through continuous optimization.
- Maintained steady traffic growth — impressions increased from 6.7K to 9.2K.
- Improved click quality via keyword refinement and negative keyword optimization.
- Smart bidding adoption led to better cost control and conversion consistency.
- Established a proven framework to scale future healthcare campaigns profitably.

COSMETIC OVERVIEW

From July to September 2025, a dedicated Google Ads campaign was launched for a Cosmetic store focused on generating qualified leads for premium aesthetic and beauty treatments.

The objective was to maximize lead volume, maintain cost efficiency, and build consistent brand visibility through optimized targeting, keyword refinement, and ad performance scaling.

RESULTS (July)

RESULTS (August)

RESULTS (September)

CAMPAIGN PERFORMANCE HIGHLIGHTS

The campaign demonstrated steady and effective results across three months, maintaining strong conversion metrics and high conversion values relative to spend.

Month	Impressions	Clicks	Cost	Conversions	Conversion Value
Jul 2025	505,939	9,772	\$10,008.95	307	\$33,690.04
Aug 2025	448,371	8,634	\$9,099.01	275	\$28,787.64
Sep 2025	450,754	7,916	\$8,794.67	267	\$30,877.98

KEY WINS & HIGHLIGHTS

- Over \$93K in Total Conversion Value achieved within 3 months
- Steady Cost Control: Average cost maintained around \$9K/month
- Strong Conversion Consistency: 260+ conversions each month
- High Intent Leads Generated through optimized keywords and ad extensions
- Improved Ad Efficiency: Continuous performance optimization reduced CPC over time
- Sustained Visibility: Over 1.4 million impressions across 3 months

CONCLUSION

This campaign showcases how a strategic, data-driven Google Ads approach can transform healthcare marketing performance across multiple verticals. By leveraging search intent, smart bidding, and tailored ad strategies, the Dental, Physiotherapy, and Cosmetic campaigns achieved consistent lead generation, cost efficiency, and strong local visibility.

Through structured campaign management, audience segmentation, and continuous optimization, each vertical experienced measurable growth and sustained ROI. This case study stands as proof that a holistic, performance-focused ad strategy can turn healthcare brands into scalable, lead-generating ecosystems with long-term profitability and brand authority.

READY FOR YOUR TURNAROUND?

If your Google Ads are underperforming — let's fix it.
