CASE STUDY

OVERVIEW

WEBSITE: EDSMITHLAW.COM

INDUSTRY: LEGAL SERVICES

BACKGROUND

We executed a comprehensive SEO campaign for a content-rich website struggling with low visibility and just 3 organic clicks per day. The goal was to transform it into a high-traffic, search-visible platform.

Our strategy included deep keyword research, technical fixes, content optimization, smart internal linking, and off-page link building. The result: a massive surge in organic traffic, consistent daily clicks, and significantly improved engagement—laying a solid foundation for long-term growth and authority.

OBJECTIVES

- Increase organic traffic and search visibility
- Improve site engagement metrics (especially bounce rate)
- Rank for high-intent, low-competition keywords
- Establish a strong internal linking and on-page structure

CHALLENGES

- Minimal organic traffic (~3 clicks/day)
- Low CTR (Click-through Rate) and engagement
- Under-optimized content structure
- Weak internal linking and site architecture

SEO STRATEGY IMPLEMENTED

I implemented a comprehensive SEO strategy that included in-depth keyword research, competitor analysis, technical SEO, on-page optimization, and strategic off-page link building. As a result, the website's organic performance surged from just 3 daily clicks to over 2,500 per day, totaling 102,000 clicks and 6.41 million impressions over the period shown. Additionally, I significantly improved engagement by reducing the bounce rate from 30% to just 8%.

Keyword Research & Competitor Analysis

- Mapped high-volume, low-competition keywords
- Conducted thorough competitor benchmarking to identify gaps and opportunities
- Built a content plan around long-tail and mid-tail keyword clusters

SEO STRATEGY IMPLEMENTED

Technical SEO

- Fixed crawlability and indexability issues
- Improved page speed and mobile responsiveness
- Enhanced structured data for better SERP presence

On-Page Optimization

- Created high-quality, in-depth content (up to 3,620 words per post)
- Optimized meta tags, headings, slugs, and images with focus keyphrases

Achieved near-perfect Yoast SEO scores:

-  Proper keyphrase density, introduction, title, and meta description
-  Strong internal & outbound linking
-  Optimized image alt-text and slug structure
-  Clear SEO title width and heading structure

Internal Linking Architecture

- Created a smart interlinking strategy to pass authority across the site
- Audited and adjusted over 150+ internal links (see attached Excel audit)

Off-Page SEO

- Secured contextual backlinks from niche-relevant blogs and forums
- Built authority with white-hat guest posting and content collaborations

RESULTS

Organic Performance Surge

- From 3 daily clicks to over 2,500/day
- Total Clicks: 102,000
- Total Impressions: 6.41 million
- Average CTR: 0.6%
- Average Position: 14.1
- (Period: Sept 2021 to Jan 2022)

Bounce Rate Reduced

- From 30% to just 8%, indicating stronger user engagement

Content SEO Health

- 15/15 SEO checks passed for content structure (as per Yoast SEO)

RESULTS

^ Good results (15)

- Outbound links: Good job!
- Image Keyphrase: Good job!
- Images: Good job!
- Internal links: You have enough internal links. Good job!
- Keyphrase in introduction: Well done!
- Keyphrase length: Good job!
- Keyphrase density: The focus keyphrase was found 18 times. This is great!
- Keyphrase in meta description: Keyphrase or synonym appear in the meta description. Well done!
- Meta description length: Well done!
- Previously used keyphrase: You've not used this keyphrase before, very good.
- Keyphrase in subheading: 12 of your H2 and H3 subheadings reflect the topic of your copy. Good job!
- Text length: The text contains 3620 words. Good job!
- Keyphrase in title: The exact match of the focus keyphrase appears at the beginning of the SEO title. Good job!
- SEO title width: Good job!
- Keyphrase in slug: More than half of your keyphrase appears in the slug. That's great!
