LOCKS AROUND THE CLOCK

Scalable Lead Growth with CPC Efficiency in Just 4 Months

CLIENT BACKGROUND

Locks Around The Clock is a trusted, 24/7 locksmith service provider offering fast, secure, and reliable lock solutions for residential and commercial clients. Operating in a competitive local service niche, their primary goal was to generate high-quality leads consistently without inflating their cost per lead.

OBJECTIVES

- Increase total conversions month-over-month
- Maintain or reduce Cost per Conversion (CPC)

- Shifted spend towards high-performing campaigns

KEYWORD & QUERY OPTIMIZATION

- Regularly removed non-converting, broad keywords
- Focused on exact match and high-intent long-tail queries
- Reduced low-quality traffic and improved conversion rates

REFINED AD COPY & EXTENSIONS

- Monthly updates to headlines and descriptions
- Added callout extensions and structured snippets for higher CTR
- Ad relevance and quality score improved over time

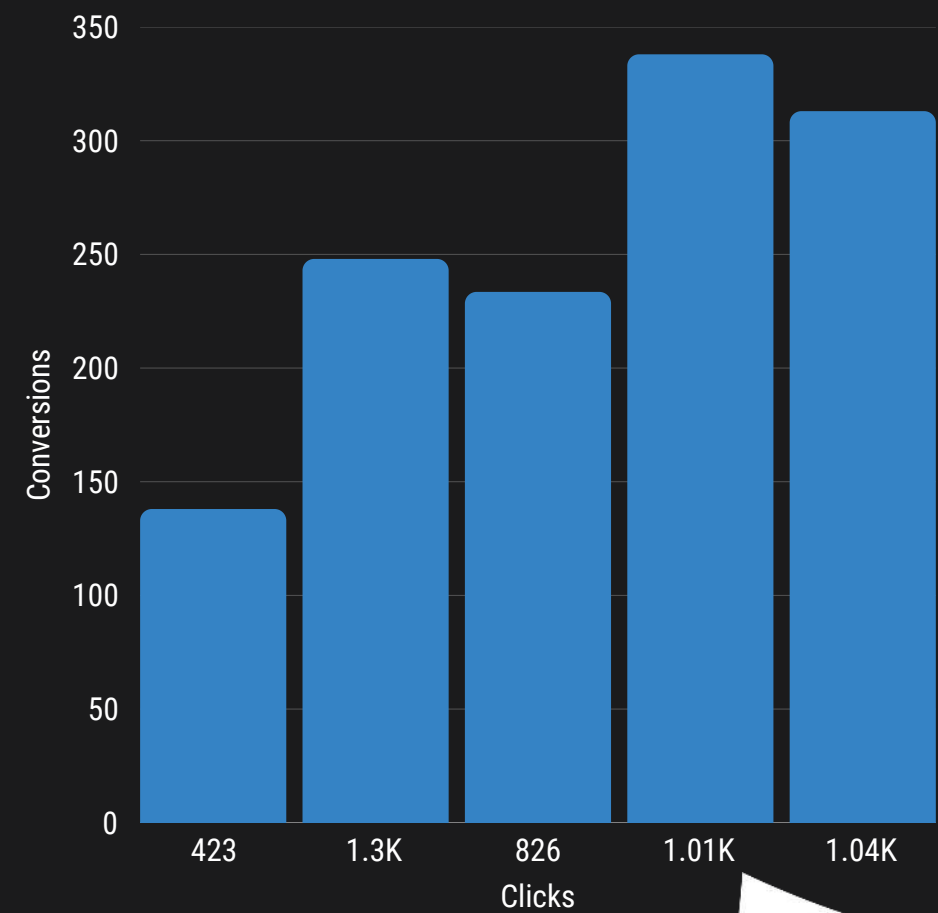

SEGMENTED CAMPAIGN STRUCTURE

- Separated campaigns by device type and audience intent
- Enabled better budget control and more personalized messaging
