

Meta (Facebook/Instagram) Ads

CASE STUDY

META ADS ROI UNLOCKED

From Low Performance to High-Impact Meta Ads Results

CLIENT BACKGROUND

Ardnamurchan Distillery, a premium whisky brand based in Scotland, wanted to enhance its online presence and drive meaningful conversions through Meta (Facebook & Instagram) advertising. Despite having a quality product and engaged audience, their ad performance was underwhelming, with low returns and minimal traction from previous campaigns.

They approached us to revamp their advertising strategy with a focus on sales-driven results while staying within a reasonable budget.

THE CHALLENGE

When we inherited the account, the following challenges were evident:

- Very low conversions from existing campaigns
- Limited budget allocated inefficiently
- Generic creatives lacking product appeal
- No structured funnel or retargeting strategy
- High cost per result with minimal ROAS

OUR MISSION WAS TO CREATE OPTIMIZED CAMPAIGNS THAT DRIVE ACTUAL PURCHASES – NOT JUST ENGAGEMENT OR TRAFFIC.

OUR APPROACH

We developed a fresh Meta Ads strategy with the following focus areas:

- **Product-Centric Creative:** Highlighted the brand's heritage, premium quality, and limited-edition appeal in ad visuals.
- **Segmentation & Targeting:** Created tailored ad sets targeting whisky lovers, collectors, and lookalike audiences based on past purchasers.
- **Conversion-Optimized Campaigns:** Ran conversion-focused campaigns with clear objectives: purchases, add-to-cart, and initiate checkout.
- **Budget Efficiency:** Kept testing budgets lean and scaled only high-performing campaigns.
- **Performance Tracking:** Monitored pixel data and on-platform insights closely for iterative improvements.
